

# LEADERS SEEK TO SPEED WORK OF CONGRESS

Adjournment Comes Before National Convention, Legislators Have But Three Weeks to End Various Tasks

# DECIDE BONUS FATE

Senate Will Vote Today to Determine Whether Bill Shall Become Law, or President's Veto Sustained

Washington, May 18. — Burdened by a realization that if congress adjourns on the eve of the Republican national convention, only three weeks of the present session remain, leaders of both the house and senate are redoubling their efforts to get action on a wide range of legislation.

Fate of the soldier bonus bill will be determined tomorrow when the senate will decide whether it should be enacted into law over the President's veto. In striking contrast with the lopsided vote given in the house yesterday, leaders agree that the result will be close. The Gooding long and short haul bill will be unfinished business to be taken up by the senate after the bonus is out of the way.

In the house, an effort will be made tomorrow to pass the Parkway bill to abolish the Railroad Labor board. Leaders in the Democratic-Republican insurgent coalition in support of the measure are determined to insist on a lengthy night session, if necessary, to get final action. The Republican organization intends to continue its fight against the bill, although its leaders disclaim any intention of resuming the filibuster which they conducted two weeks ago.

# Tax Report Expected This Week

On Tuesday, the house finally will get down to cases on farm legislation. The McNary-Haugen bill, which would set up a corporation to sell surplus farm products abroad, will be taken up. Two night sessions will be held during the week in an effort to speed up consideration, and leaders will strive to reach a final vote by Saturday.

# By the end of the week, it is likely

to be ready to report. A number of controversial points remain to be adjusted.

# The World court issue will come

to the fore Wednesday when the senate foreign relations committee takes up various plans for American participation in such a tribunal. Four definite proposals are already before the committee with at least one more in prospect.

# Three senatorial investigations—

those into alleged Texas land fraud, former Attorney General Daugherty's administration, and the Mayfield election contest—will continue, while the house committee investigating Shipping board affairs will seek more light on the ship to Italy of the steamer Martha Washington.

# The house committee authorized a month

or more ago to investigate the aircraft industry may get under way with its inquiry during the week.

# NEW POLITICAL PARTY FORMED

United Farmer-Labor Party of New York State Would Support LaFollette

Schenectady, May 18.—The "United Farmer-Labor Party of New York State" was organized at a convention here today under direction of the Federal Farmer-Labor party of New York city and the Labor party of Schenectady. The platform and program of the party were adopted.

John J. Ballan, representing Buffalo labor organizations, said the purpose of the party in the state was to coordinate local trade unions, farmers' organizations, and kindred organizations into the United Farmer-Labor party of the state, which is to be affiliated with the national body.

The convention was attended by 32 delegates representing 32 organizations located in New York, Buffalo, Rochester, Albany, Ithaca, Schenectady, and Glens Falls. Representatives were present from the Federated Labor party, Workers' party, Pease Union and the Committee of 43.

Another purpose of the party, Mr. Ballan said, was to build up support for New York state for a possible third party supporting Senator LaFollette. (Continued on page 2)

# COULDFE HAS NEW MAJORITY

Washington, May 18. — William C. Butler, manager of President Coolidge's re-election campaign, today secured a 50-50 majority in the 100 delegates to the Republican national convention who are expected to be selected at the convention in Chicago.

The statement gave William C. Butler 50 delegates, two from Illinois and 18 from New York. (Continued on page 2)

# M'NARY-HAUGEN BILL IS DESIRED

Farm Organizations, in Letter to Congressman, Say No Other Measure Acceptable

Washington, May 18. — Leaders of a number of national farm organizations in a letter sent to members of the house and senate today urged enactment of the McNary-Haugen farm relief bill "to save agriculture from impending ruin."

The letter said consideration of any other agriculture aid bill would be futile. Officers of the National Grange, National Live Stock Producers' association, and Farm Bureau federations in Iowa, Minnesota, and Indiana, were among the signers.

"The whole and solitary purpose of the McNary-Haugen bill," the letter said, "is to give the farmer as big a dollar for the products of his toil during the next five years" as the dollar that he is forced to pay under the Fordney-McCumber act and to labor under the existing generous wage scales.

No Effective Substitut.

"For four long weary months this measure has stood the fire of the opposition before the house and senate committees and during this time we have sought to answer every fair and valid objection made against its various provisions. Therefore, we have a firm conviction that the measure, as it now stands, is legally sound, practical and workable."

"In the meantime let congress and the whole country understand that the day of soft soaping agriculture is past—that in this hour when the average farmer is struggling for his very existence it would be an insult to offer him a mere legislative nostrum that does not honestly and fairly seek to relieve him of the tremendous handicap under which he is laboring."

"In all kindness, but nevertheless with profound firmness, we say, give us the McNary-Haugen bill for agriculture is unable to accept a substitute."

# THREE CHILDREN BECOME ORPHANS

Father Dies From Burns of Acid Thrown by Woman Whom He Refused to Marry

Little children were made orphans tonight when a woman known to police as "Grace" dashed a bottle of acid in their father's face while he was sitting in a downtown theatre, causing his death before he could be rushed to a hospital.

The victim was George E. Hackney, 39, who according to Rose, aged 9, his eldest daughter, has been keeping company with the woman for some time, but had refused her repeated requests to marry her.

"Grace kept asking papa to marry her, but papa wouldn't do it, so Grace got mad," the little girl sobbed tonight when told of the tragedy. Her mother died a few years ago.

Donald Wilcox, 18, who accompanied Hackney to the theatre, was sitting beside him. He was also burned severely on the hand. The woman fled from the theatre and escaped in an automobile.

# CIGARETTE FIRES BURN AGED WOMAN AND MARINE

New York, May 18. — Mrs. Anna Elcox, 74, may die of burns received, police say, when a cigarette she was smoking set fire to her clothes in her room at the Hotel Theresa here tonight. Her screams brought hotel attendants, who put out the fire by wrapping her in a blanket. Physicians said there was slight chance for her recovery.

John H. Murphy, a private in the marine corps, was suffocated today when a cigarette he was smoking set fire to his bunk on board the army transport Chateau Thierry, lying at the Brooklyn navy yard.

# CHURCH CONDEMNES PROHIBITION

Cape Town, South Africa, May 18.—Prohibition is condemned as a wrong method for committing drunkenness by the synod of the Dutch Reformed church of South Africa, which holds that "wine is a gift of God which no one should deprecate."

# EARS OPERATED UPON

Troy, May 18. — Manager John J. Evers of the Chicago White Sox, underwent an operation for appendicitis in the hospital here this afternoon. Physicians said tonight his condition was "good" and that the patient was "feeling comfortably."

# STREET JUDGE DIES

Glensville, May 18. — William S. Canady, 55, county judge of Fulton county, died at his home here at 1:25 o'clock this morning. Death was caused by cerebral hemorrhage.

# AUTO GOES DOWN BANK; ONE DEAD; SEVEN HURT

Albany, May 18. — One man was killed and four women and three boys were hurt when a speeding automobile skidded and went over an embankment on a sharp curve in the Schenectady-Troy highway near here early today. The dead man is Johnathan Northington of Schenectady, an employee of the Central Electric company. None of the seven injured is expected to die.

# PASSENGER AIRPLANE SHOTS

London, May 18. — Night flight to Paris by after dinner express airplane from London to Paris was interrupted by a shot fired from a small boat over the English coast, but the plane was not hit.

The plane, a biplane, was shot at by a small boat over the English coast, but the plane was not hit.

# MISSING GIRL, 15, FOUND CLAD IN BOY'S CLOTHING

Birmingham, May 18. — A 15-day search for Christine May Dunlap, 12, missing from her home in Ellis Hollow, near Ithaca, ended tonight when the girl's father, accompanied by police officers from Ithaca, recognized the girl on the street here. She was wearing a boy's clothing and had been missing since she was last seen leaving home.

Working all the time in a local restaurant, Christine was never suspected of being a girl. In a rooming house, where she had stayed, nothing but boys' clothing was found. The girl was reluctant to quit her job and so came.

Pilgrimage to the war graves in France where memorial services recently were held in the Terlincthun cemetery, the spot where Napoleon massed his troops to attack the British.

# DRY AGENTS RAID LUXURIOUS PLACE

Accidentally Stumble Upon Establishment Amid Delightful Surroundings

New York, May 18. — What prohibition enforcement agents described as the most luxurious bootlegging establishment yet touched by the dry law in New York was raided early today and Alfred Gross, reputed millionaire owner, and three employees were arrested. More than \$5,000 worth of wines and liquors were seized. The men were held for action by a federal commissioner tomorrow.

Prosecutor Lyman Ward described the house as the show place of the "exclusive" Manhattan beach section.

"The grounds are landscaped with flower beds, lakes, and miniature pine forests. A complete bar, with red tiled floor, was located in the house," he said. Beer, tape, an orchestra, two bartenders, and a dozen waiters were attending to the wants of 30 couples dancing in another room when we entered."

Agents Increase Activities.

The discovery was accidental, as the dry agents were seeking a telephone to tell of the escape of other fugitives by hydro-airplane and seeing the lighted house, started up the beach for it. Looking in a window, they crept away, used another telephone to secure a search warrant, and then made the raid.

Two men were arrested and their automobile with 20 cases of liquor seized by other prohibition enforcement agents working on Long Island.

The tendency following the running gun fight with bootleggers, and the death of Ferdinand Bonora, special constable of Southampton, Friday night, has increased the activities of the dry agents. Hundreds of motor cars were stopped on all the highways along the ocean front of Long Island and searched for liquor.

# FIND MESSAGE FROM DIXMUDE

Crew Writes Ship Was Adrift in Tempest With Gasoline Tanks Empty

(By the Associated Press)

Aleutian, Corson, May 18. — "Gasoline given out. We are adrift. Will like a tourist. Dixmude's crew. Adrift and in the Pacific."

This scrambled message found in a bottle washed upon the Corson coast at Pripirova is believed to be the last message from the ill-fated ship Dixmude lost in the Mediterranean last December.

The French super-Zeppelin Dixmude at the time of her destruction was attempting a distance and endurance record. She disappeared in a series of storms with 52 men aboard. Extensive search for her has been made by French warships and airplanes.

The finding on December 22 of the bodies of her commander and two crewmen, by the Canadian ship of the coast of southern Sicily, led the message to be deciphered. It was found in a bottle washed upon the Corson coast at Pripirova.

Later charred bits of the ship were picked up, and a board of inquiry reported that the Dixmude had been struck by lightning.

# SAME BULLET KILLS TEACHER AND STUDENT

Had Been After Wild Flowers on Lonely Mountain Road — Moonshiners Thought to Be Murderers

Harrisburg, Pa., May 18. — Working on the belief that moonshiners in the mountain regions back of Maryland are responsible for the murder of a pretty school teacher and her young man companion in a lonely mountain pass Friday night, state police and authorities of two counties are combing the region.

A single bullet from an ambush is believed to have caused the deaths of Harry L. Ganster, 21 years old, a senior and honor student of the Maryland high school, and Miss Leah Ellenberger, 22-year-old school teacher. The couple left their homes late Friday afternoon in an automobile.

The bodies were found this morning by the father of the youth and an uncle of the girl, who started a search after midnight when they failed to return home.

The boy's body was found on the floor of their automobile. The girl was dead on the seat. Young Ganster is believed to have been in the act of getting into the car when shot. The same bullet, which passed completely through his body, was found under the skin of the girl's left arm, after it had pierced her body.

Had Photographed Skills.

The murder took place in a mountain pass seldom used by automobiles. The stalled car was found on the top of the pass. The back of the machine was lifted with wild flowers and the car was turned in the direction of home.

Friends of the murdered youth believe death was caused by moonshiners, who are said to have their headquarters in the mountains. As an amateur photographer, young Ganster frequently took pictures of stills in the region and it is thought that liquor manufacturers believed him to be in the secret employ of the state police.

Miss Ellenberger, a former resident of Maryland, lived in Hollidaysburg, near Altoona. She had been teaching school for the last two years at Martinsburg, not far from her home.

# FLYERS TAKE NEXT JUMP IN FLIGHT

Sunday Dinner, But Aviators Get Off Early This Morning on 500-Mile Trip

(By the Associated Press.)

Paramaribo Island, Surinam, May 18. — With clear weather ahead, the three United States army aviators left here at 7:35 o'clock this morning for Hittokappu bay, Yeterofu Island.

The around-the-world air cruises were refueled and put in shape Sunday for the jump to Hittokappu bay, but bad weather prevented their taking off. The squadron reached here in a snowstorm Saturday morning after a rising tide had swept them off their course and to the shores of Bering Island, to the north.

Sunday Dinner Day.

The air line distance from Kashiwabara bay here to Hittokappu bay is about 500 miles. The Japanese destroyer, Hamakaze, here to welcome the Americans on behalf of the Japanese government, sailed yesterday to take up a position about half way between the two points with a view to rendering aid to the aviators if necessary.

Sunday proved a dismal day. A cold wind blew from morning until night, and snow fell intermittently. The work on the airplanes finished. The aviators spent the remaining hours reading and playing cards. In the evening they were honor guests aboard the second Japanese destroyer, the Tokitsukaze, in the bay here.

# FLYERS TAKE NEXT JUMP IN FLIGHT

(By the Associated Press.)

Paramaribo Island, Surinam, May 18. — With clear weather ahead, the three United States army aviators left here at 7:35 o'clock this morning for Hittokappu bay, Yeterofu Island.

The around-the-world air cruises were refueled and put in shape Sunday for the jump to Hittokappu bay, but bad weather prevented their taking off. The squadron reached here in a snowstorm Saturday morning after a rising tide had swept them off their course and to the shores of Bering Island, to the north.

Sunday Dinner Day.

The air line distance from Kashiwabara bay here to Hittokappu bay is about 500 miles. The Japanese destroyer, Hamakaze, here to welcome the Americans on behalf of the Japanese government, sailed yesterday to take up a position about half way between the two points with a view to rendering aid to the aviators if necessary.

Sunday proved a dismal day. A cold wind blew from morning until night, and snow fell intermittently. The work on the airplanes finished. The aviators spent the remaining hours reading and playing cards. In the evening they were honor guests aboard the second Japanese destroyer, the Tokitsukaze, in the bay here.

**SOCIAL MEETING**

Source Wednesday evening at J. J. Hall, Davenport Chamber. Made by the Ben Ten orchestra.

—Secretary E. J. MacEwan of Oneonta Chamber of Commerce will be the speaker at the luncheon of Delta Kiwanis club on Tuesday.

—The house office of the American Legion in the Red Cross rooms of the post office building will be open this week only on Monday, Wednesday and Friday evenings and on Tuesday, Thursday and Saturday afternoons.

—The severe wind of yesterday afternoon brought down trees on several city streets. On Main street, just above Pine, falling branches tore down electric light wires and gave a repair gang several minutes work.

—Members of the Kiwanis and Rotary clubs who have been requested to wear evening clothes to the Women's Wedding are hereby informed that the actresses, as they pass down the aisle, will smile just as sweetly at them if they wear business suits or even overalls.

—Mrs. David H. Mills and Miss Marjorie Russell gave a miscellaneous shower at the Mills residence on Friday afternoon to Miss Helen Seybolt in honor of her approaching marriage. Only a limited number of the most intimate of the lady friends of Miss Seybolt were invited. Following several rounds of bridge refreshments were served. Miss Seybolt received many choice gifts.

**TREMEMDIOUS AUTO TRAFFIC**

Nearly 3000 Cars Passed Broad Street Corner During Eight Hours on Saturday.

That the problem of automobile traffic on Main street is a most difficult one to solve will be apparent to all when they realize the vast amount of traffic along the thoroughfare on a busy day. Police officers counted every car which passed the Broad street intersection for the eight hours beginning at 10 o'clock Saturday morning and ending at 8 p. m. During that time a total of 4,000 cars passed the corner, one nearly every minute during the eight hours. When it is considered that Saturday was far from being as busy a day in Oneonta as are the majority of the Saturdays during the summer months it can be seen that the police department has a real problem in managing traffic on that corner alone.

The traffic jam decided upon at the meeting of the Common Council and police commission held last week has been commenced and it is expected that it will bring to light many interesting facts in regard to the number of cars parked along Main street, the number of cars parked by local people and the reasons for the parking. When all the data is at hand it is expected that a new traffic ordinance, designed to solve the traffic problems in the best possible way at the least inconvenience to motorists, will be drafted and passed by the Council.

**BIG ENCAMPMENT MEETING.**

Many Vicinity I. O. O. F. Encampments to Visit Oneonta Friday.

On Friday evening, May 23, P. P. Cooper encampment of this city will hold one of the largest encampment meetings ever held in this city. The object of this meeting is to confer the encampment degrees upon a large class of Odd Fellows from Richfield Springs, Cherry Valley and Oneonta. Delegations will be present from Delhi, Sidney and Unadilla. Grand Gorge will also be present and has promised to bring with them a few of their own lodges which are to amuse as well as instruct.

Unadilla encampment will work the Patriarchal degree, while the Royal Purple will be handled by P. P. Cooper encampment of Oneonta and will be put on to the satisfaction of all present. Following the degree work, a supper, fit for a king, will be served in the dining room. It is hoped that all patriarchs who possibly can will attend this gathering. The business meeting, which will be as short as possible, will be called at 8 o'clock sharp.

**Meetings Today.**

Stated communication, Oneonta lodge, No. 466, F. & A. M., this evening at 8 o'clock. Master Mason degree will be conferred. Refreshments.

Bible Study class, group 4, will meet tonight at 7:30 at the home of F. W. Knapp, 55 Elm street.

The Oneonta Home Bureau will hold a business meeting preceding the clothing lesson at the Y. M. C. A. this evening at 7:30 o'clock. All members please be present as projects for next year will be discussed.

Regular meeting of the Delphin society this evening at 7:30 sharp, in library hall. Subject, Social Life in Rome. Plans for the convention will be discussed.

Regular meeting of Oneonta Grange tonight at 8:15 o'clock, in I. O. O. F. hall. Work of the second and third degrees, after which the men of the organization will entertain the women to a dinner of which no woman has had any part in the preparation.

There will be a play entitled, "Daddy," given by local talent, in the New Legion hall May 31. Dancing after entertainment. Refreshments. Ladies please bring cake.

**TOMMY'S THE BIG NIGHT**

Headline of Oneonta Stage Society

When the curtain rises at 8:20 o'clock this evening at the Oneonta theatre it is expected that the huge playhouse will be filled with residents of the city and vicinity gathered to witness what everybody has been talking about for the past two weeks—the Washington wedding, produced by the Rotary and Kiwanis clubs for the benefit of the fund for the establishment in Oneonta of a day nursery and dormitory for working girls. The last rehearsal has been held, each member of the bridal party and each actor has been rehearsed and each actress assembled and each person in the chorus has his or her song or dance learned letter perfect. Everybody is marking time until 7 o'clock tonight, when the big company assembles at the theatre to be converted, by the witchery of lights and trills, paint and powder, into an assemblage of perfect ladies.

There have been many excellent amateur theatrical productions in Oneonta in the past but nothing quite as novel and unique as this one. From the time the curtain rises to disclose the battle and the colored mammy, played by Alfred V. Carr and Damon L. Getman, respectively, until Daniel Franklin as the bride and Leon VanWoert as the groom, are safely hitched together, the old maid and the bachelor, G. Edmund Tupper and Byron H. Chesbro, have decided to walk through life together and the curtain falls with the entire assemblage singing "Oh Gee, Oh Gee, Oh Golly, I'm in Love," while executing dainty dance steps, there is something doing every minute. When the audience is not laughing itself hoarse as dignified citizens of the male persuasion walk down the theatre aisle in the garb and guise of lovely ladies it will be listening attentively while Oneonta's foremost singers hold the stage or will be watching eagerly the dances of the choruses of young ladies.

The Women's Wedding is not simply a mock wedding in which all the parts are taken by men. That feature is of course the most predominant and is bound to create the most interest and amusement but in addition there will be specialty acts of the most entertaining kind. There will be songs by such well known soloists as Byron H. Chesbro, Jerry B. Wilson, Laverne Pierce and S. E. McKean, each one accompanied by singing and dancing choruses of young men and women; selections by such lesser known concert stars as I. J. Bookhout, Linn Gardner and Dr. Norman W. Getman; an act in which Damon L. Getman will recite the fads and foibles of well known Oneontans; solo dances by hitherto undiscovered local talent; comedy skits of the most laughable sort; and several surprise acts of which even the rest of the talent is not aware.

The curtain goes up at 8:20. The cause for which the play is being given is a good one and the show itself will be worth many times the price. Let's all go.

**EXCELLENT DANCE MUSIC**

Golden Gate Syncopators to Play at Lake Pavilion and at Dancing Academy.

Earl Walsh of this city, manager of the Goodyear lake pavilion and of Oneonta Dancing academy, announced yesterday that he had secured Milton Spielman's Golden Gate Syncopators to furnish dance music for him for the summer and that they will arrive in Oneonta on May 21 to take up their contract for the summer.

The orchestra played at the Oneonta theatre last winter and were considered one of the best dance orchestras ever to have been heard in the city at that time, and Mr. Walsh is justly proud of the contract with them, one that will give to residents of this vicinity the best of dance music for the summer.

The orchestra has played the Keith vaudeville circuit for the past two years and have attracted favorable attention the country over. Oneonta has been given prominence the country over for dance orchestras which have been secured here for single performances, and Mr. Walsh feels that the summer engagement of such an orchestra as the Golden Gate Syncopators is just as notable.

They will play at the Goodyear lake pavilion on Tuesday and Friday evenings, opening there on May 20 with a novelty dance of many unusual features. They will present vaudeville skits every evening.

They will be heard Wednesday and Saturday evenings at the Oneonta Dancing academy, while they are open for engagements on other evenings than those mentioned and bookings should be made with Mr. Walsh.

**Mrs. Winney Gets Nice Brook Trout.**

Mrs. Wilson S. Winney of this city caught an 18-inch native brook trout Saturday which weighed 2½ pounds, taken from the Otsego creek near Otsego park. While credit for landing the fish undoubtedly belongs to Mrs. Winney, "Bill" Winney says that his wife should grant him a good share of the success for telling her where the big ones lay.

**G. Ross Patrick Designs.**

G. Ross Patrick, who has been in the employ of the Stevens Hardware company, Inc., for the past five years, has resigned his position with that firm effective June 1, to accept a more lucrative one as salesman for the Albany Hardware and Iron company, with headquarters in this city.

All members of the Kiwanis and Rotary clubs who have had tickets for sale for the Women's Wedding are requested to make settlement today with Harry Saunders, 306 Main street, for Kiwanis, and C. J. Bonner, 169 Main street, for Rotary.

**Smiths House — Two fine, electric lights, indoor large level lot, all kinds of fruit, \$4,995, cash \$500. All newly painted. Square Deal agency. Phone 610-W.**

For sale: 1000 sq. ft. lot, property \$1,100 needed. Good home to quick buyer. Address E. E. A. care Star.

**LOVE'S DAY ALLIANCE**

Object of this organization presented at Union Square last evening by Secretary, Dr. John Ferguson.

Dr. John Ferguson of New York city, secretary of the Lord's Day Alliance, was the speaker at the union service held last evening at the First Presbyterian church and he presented in forceful manner the objects and significance of his organization. At the close of the meeting the opportunity of contributing to the alliance was granted of which many took advantage.

Dr. Russell of the First Presbyterian church presided over the meeting. The fifty-ninth chapter of Isaiah was read by Rev. Dr. C. S. Pondstone of the Main Street Baptist church, while prayer was offered by Dr. John W. Flynn of the First Methodist Episcopal church.

Dr. Russell then presented Dr. Ferguson, drawing the attention of the audience to the need of an organization like the one which the latter represented.

In his opening remarks Dr. Ferguson dealt somewhat abstractly with the meaning and importance of the Sabbath, and then pointed out some startling figures taken from a survey made by representatives of the Lord's Day Alliance.

He said that by actual count the attendance of 573 morning services at which representatives of his organization had spoken in 1932 the attendance was only 27,727, or an average of less than fifty. The memberships of these churches ranged up to 1,500, and less than one-fourth of the membership of the churches was included. He added that the average attendance for 1933 had increased, but the proportion of one-fourth of the membership remained about the same.

He said that there was only one reason for this fact: That 75 of every 100 church members preferred to do something else on Sunday to attending church.

The speaker continued that turning the attention of children to trivial things on Sunday was the greatest damage in this fact, for in them lies the hope of the church of the future. In a comparison with the state of Pennsylvania, which he pointed out was a very fair one, the state of New York has only about one-fifth of the percentage of Sunday school attendance. This fact, according to Dr. Ferguson, was due to the laws of Pennsylvania which have never allowed any deviation from the original constituted Sabbath.

Dr. Ferguson said that he had no "don'ts" to urge, that he had no desire to see Sunday a day of gloom, but that he did have high aspirations for that day.

He spoke of the work of the alliance in the state legislature in preventing the enactment of laws which would draw attention from the significance of Sunday and react unfavorably on the church, state, nation, and even to individual citizens.

As one of the accomplishments of his organization, Dr. Ferguson said that in spite of many bills which had been passed before the Lord's Day alliance had representatives there, not one of 13 bills proposed in the state legislature during the past three years which would encroach on the Sabbath had been passed, and only one had come to a vote.

**BATTALION SHOOT**

Guardmen From Walton and Binghamton Contest Here Saturday With Company G Riflemen.

Battalion tryouts for the team which will contest at Henssler for places on the Tenth regiment rifle team were held on the Company G range at West End yesterday. 29 men from Company F of Walton and Companies B and H of Binghamton contesting with seven representatives of Company G. The slow fire match was shot but rain prevented the shooting of the rapid fire course. That will be completed on the ranges of the individual courses.

Major A. C. Evans, Captain K. S. Anderson and Sergeant Hurler, Gordon and Gillies, all regular army men attached to the Tenth regiment, were present and assisted in the shoot. Major Evans and Captain Anderson were very well pleased with the work of the guardsmen and prophesied that the battalion would make a good showing at Henssler.

The seven representatives of Company G were Sergeants Pearley A. Wood, Newton Darling, Clifford Grant and Gould M. Brown, Corporal Hermann M. Palmer and Privates Adrian Blanchard and Herbert Paline. Their work was a distinct credit to Company G.

Luncheon was served on the range at noon by Mess Sergeant Charles Eggleston.

**Don Sherman in New Role.**

Don Sherman, he of Jay Circus fame, will close his season with this week's engagement at the Acoly theatre in Boston, Mass., after which he will return to his new home in this city, which has been quite extensively improved.

The summer acquisition of the police with the merits of the Hudson super car for the Wilbur Motor company of this city. If he can be half as successful in persuading customers to buy Hudsons as he has always proven in efforts to make people laugh, he will prove a valuable salesman for Mr. Holmes.

**Births.**

Born, May 12, at 3 a. m., at the Foster hospital, to Mr. and Mrs. Charles Ger of 15 Pleasant avenue, a 6½ pound boy.

**PLAYING OUR THIS WEEK**

Manager Thomas and several of the Ben Ten Orchestra and the Ben Ten Orchestra.

A week from today it may be said that the professional baseball season in Oneonta is under way. For by the time Manager Roy Thomas and the team, whom he has signed to represent the city on the diamond this year will have arrived and practice will have commenced in preparation for the formal opening of the season with the Syracuse Olympics on Memorial day.

Hon. D. F. Wilber, president of the Community Athletic association, left by motor yesterday for New York city, and upon his return, on Wednesday he will be accompanied by Manager Thomas and several of the new pitchers. All of the players are due by Friday and practice will undoubtedly commence immediately.

Manager Thomas has assembled a first class team and all indications point to a very successful season. Some difficulty has been experienced in booking team but a considerable number of excellent outfits have been signed and many more games are in prospect. It is not thought that Oneontans will lack good baseball this summer.

**KEYES BUYS BAUER PLANT**

Valuable Manufacturing Plant at East End Acquired by Local Realty Developer.

D. F. Keyes has purchased of the Bauer Chemical company, Inc., of New York city, the Sanatogen plant at East End, which for some time has been unused. Mr. Keyes has no definite plans for the property, but the buildings, which are substantially and well built of brick, are well adapted to manufacturing uses and it is noted that some local industry will be secured for the buildings.

There are in all 20 buildings included in the property, only a limited number of which are occupied by the buildings. There is also included in the buildings some of the machinery formerly used by the Bauer Chemical company, including an engine and dynamo and with the other machinery remaining might easily work in well for some enterprise.

Mr. Keyes, who is active on the industrial committee of the Chamber of Commerce, has had recent conferences with several manufacturers, and while the purchase was made individually, its acquisition will at least not retard the prospects of its early occupancy by some going concern.

**Automobile on a Rampage.**

Those who noticed yesterday afternoon that a telephone pole in front of the First Presbyterian church had been broken off close to the ground and was lying across the lawn will be interested to know of the very peculiar circumstances surrounding its fall.

Miss Grace Miller, residing just beyond the church parsonage, had left her coupe standing open in the drive. Suddenly the machine started backward down the incline, described a graceful arc when it reached Main street, and crashed into the pole, breaking it off close to the ground. Fortunately no one was passing at the time. The wonder is that the machine without a driver, did not do more damage.

A bent fender was the only damage done to the car.

## Steering Gear Should Be Inspected Now

The pleasure of driving can be marred a great deal if your car is hard to steer or the front wheels start wobbling. For this starts a vibration at the steering wheel which soon tires your wrists and tries your nerves. In addition to the discomfort of driving a car that steers hard you are liable to have a heavy bill for front tires. If the alignment of the front wheels is not correct, the front tires will be GROUND down owing to the screeching action which is set up. This acts in much the same way as an enemy wheel would act if it were brought in contact with the tread of the tire. If you find that you are getting very poor mileage from your front tires, do not blame the tires before you check up the front wheel alignment.

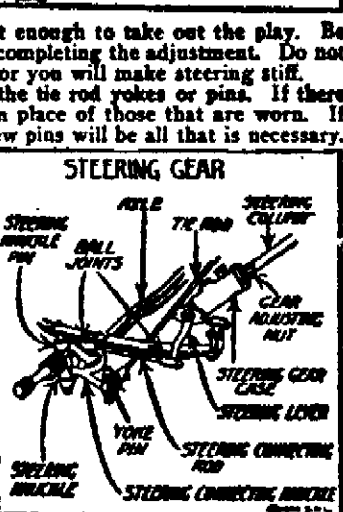

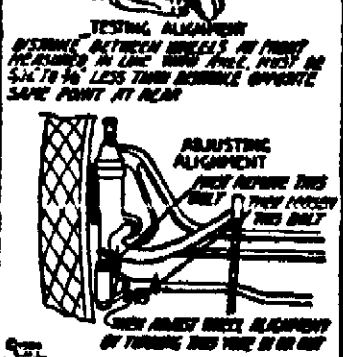

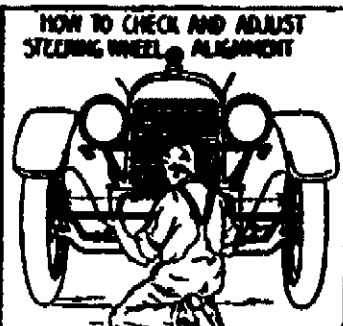

In addition to the discomfort of driving a car that has wobbly front wheels and that steers hard, you are taking chances that may cause a bad accident. When the steering gear and connections are not kept lubricated properly, they start to wear very quickly and rattle badly. This play in the connections starts crystallization in the steel in the steering arms, steering knuckles and steering lever and makes them liable to snap off when they receive a very hard jolt. If any of the connections should break, you lose control of your car. Then of course there is an accident.

The first thing to do is to thoroughly clean the hard grease and mud off all connections and lubricate them thoroughly. The drawing shows all connections clearly that require attention. First fill the steering gear case with a light grease or heavy lubricating oil. Next grease the ball joints on the connecting rod. If there is very much play between the ball end of the steering lever and the connecting rod or between the knuckle lever ball and the connecting rod, take out the cotter pin holding the adjusting screw on the end of the connecting rod and screw it up just enough to take out the play. Be sure to replace the cotter pin after completing the adjustment. Do not screw up this adjustment too tight or you will make steering stiff. Next feel if there is any play in the tie rod yokes or pins. If there is, you will have to fit new parts in place of those that are worn. If the play is not very bad, perhaps new pins will be all that is necessary.

Now that you have checked up the connections, get into the driving seat and see how much movement there is of the steering wheel before the wheels begin to move. There should be a small amount of play, about one inch. If there is more than this, loosen the clamp nut at the top of the gear case cover and turn the adjusting nut until the movement of the steering wheel one way or the other does not exceed more than an inch. Be very careful not to make the adjustment too tight or the steering will be stiff. If you find it is impossible to take up the play with this adjustment without making the steering very stiff, the gear has worn and must be turned round to expose a new part of the worm. This is a job you must have done by a good mechanic.

With all connections tightened up and adjusted, test the front wheel alignment. To do this secure two long rods and carefully measure the distance between the rims of the wheels directly in front of the center of the axle. Now measure the distance between the wheels behind the axle. If the alignment is correct, the distance in front will be from 1/4" to 1/2" more than the distance behind.

If necessary to adjust, remove the bolt in the adjustable yoke on the rod and turn it in or out until you get the correct alignment. Go over all steering connections and clean and lubricate them at least every 300 miles and examine to see that they are in good condition. This attention will save you repair bills and make steering easier and safer.

## NEXT WEEK—HOW TO ADJUST THE BRAKES

The Doc Ho-Tred.—"Hey, Bill, your doctor's out here with a flat tire, and he wants to know what it's going to cost him." I announced the garage owner's assistant.

Speed Limit in Sweden.—Many American drivers would have to change their ideas about speed when touring Sweden. There it is unlawful to drive a car faster than 25 miles per hour.

Fine job printing at Herald office.

## BRANDS HEAVILY ADVERTISED

As to the brands of tires and the brands of tires and the brands of tires.

In a short time the touring season will be open and many car owners will take long trips over roads strange to them, and under conditions with which they are not familiar. In order that the maximum of pleasure may be derived from a vacation trip it is essential that the car should be in the very best of condition.

Perhaps one of the most overlooked parts of the motor car which detracts from the best performance is the braking equipment. It is a factor which, unless adjusted carefully, undoubtedly causes poor performance. Car owners and garage men do not take pains enough in adjusting brakes. All things must be eliminated.

## Easy of Detection.

Many owners and garage men think that as long as the brake drums do not feel warm to the hand after driving, the bands are not dragging. This is not conclusive evidence that brakes are free. The only way to be certain that brake bands are not dragging is to jack up both rear wheels from the ground and then turn one wheel in the forward direction. When this is done, due to differential action, the wheel on the opposite side of the car should turn in the reverse direction if the bands are free.

While this check is being made, the gearshift lever should be in a neutral position. Any "swishing" or rubbing noise at the brakes while the wheel is being rotated is a suspicious circumstance that should be eliminated if you wish to be free from brake drag.

It is almost unbelievable to one that has not had the experience, what a very slight amount of brake drag will do to the performance of an automobile, especially on a grade.

## Plan to Test Defective Valve for a Slow Leak

To test a defective valve for a slow leak, turn the wheel until the valve stem is at its highest point—as far from the road as possible. Remove the dust cap and hold a glass of water so that the mouth of the stem is submerged beneath the liquid. Small bubbles of air will form and rise to the surface of the water if the valve is leaking. When such trouble is experienced, the cause is usually eliminated by screwing down the seating of the valve or replacing with a new one.

## Progress of Highway Work.

The following bulletin showing the work done upon highway contracts in the week ending May 16, is issued by A. W. Brandt, state commissioner of highways:

Contracts under way, 154.  
Men employed by contractors, 4,996.  
Square yards of pavement completed during week, 27,114.  
Square yards of pavement completed this season, 51,949.  
Maintenance force employed by state, 4,322.

The rain, which was general throughout the state during the week hampered all construction work, but despite this adverse condition there was an increase over the week before, both in the number of men employed and the pavement laid.

## Can An Auto Ride.

With more than 15,322,000 motor vehicles registered January 1, 1924, it is safe to say there are now at least 16,000,000, which means that if every man, woman and child in the United States wished to go to some certain point by automobile all at one time, they could do so by getting aboard an automobile or truck.

Imported Autos in Britain.—It is estimated that fully one-half of the automobiles in use in Great Britain are imported. American cars leading, with French and Italian in close second.

8 MARKET STREET

# The Cottage Gardener

The Gardener Who Really Cares, and Who is Depending Upon His Own Past Experience to Gain the Best Results—the First Vegetables and Flowers of the Season—Must Have a Good Coldframe to Harden Off His Plants.

## Grow Your Plants in Box or Hotbed

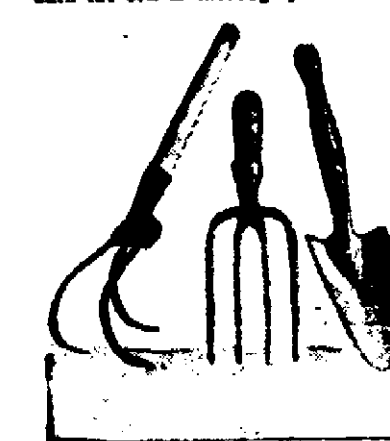

Gardeners Find It Pays to Have Supply for Their Own Use.

Prices of vegetables on the market are always higher in the spring of the year while certain of the most sought-after kinds are still scarce. This is especially true of the crops classed as greens and salads, because everybody seems to need more of this kind of food in the spring, and, therefore, these vegetables find ready sale. The home gardener can save this much by having his own crops coming on early. To do this it may be necessary to start some of the plants in a window box in the house and to have a small coldframe along the south side of the garage or in some other well protected place where both the early crops and the early plants for setting in the garden may be grown.

Lettuce, radishes and beets can be grown right in the frame while plants like tomatoes, peppers and eggplant, are being prepared for setting in the open. Very little can be gained by starting these plants in the hotbed or coldframe.

Success of growing early beet plants in the hotbed then transplanting them to the open ground. In the opinion of the United States Department of Agriculture, the important point, however, in having an early garden is to have thoroughly prepared the soil in the fall so that it will dry out quickly in the spring and be in shape for planting just as soon as the frost is out of the ground.

Among the crops that can be planted extremely early in the open ground are potatoes, peas, radishes, beets, onions, spinach and the so-called frostproof cabbage plants, which after all, are nothing more than ordinary cabbage plants that have been grown in the open and well hardened to withstand the cold blasts of early springtime. In some places lettuce, spinach and onions can be properly planted in the fall and will mature very quickly when the first warm days of spring appear. It is really not safe to plant beets and other of the more tender crops until the soil is thoroughly warm and

Tools for Use in Hotbed.

all danger of frost is past and yet a small packet of seed costs very little and it is worth the hazard of planting them early.

Every garden of any size should have in it a patch of asparagus as the tender shoots of this permanent vegetable are among the first of the green growth that appears in the spring. In addition, the asparagus bed does not have to be planted but once in 10 or 15 years, if given the proper care and treatment.

Early crops in the garden pay best, because they yield a supply of fresh vegetables when most needed and when they cost most in the grocery.

## FRAMES FOR VINES

Summer or autumn for flowering them out only add beauty to the home surroundings, but give the stars a better chance to get the air and sun. One growing more green.

Shower Strong Birds. Shower, a kind of parrot, native to South America, can break with their beaks into which round attacks with a hammer.

Quite so. When the little blue-throated dove comes away in some sort of odd-gaited way to see that he hasn't been taken.

## Good Seed Bed Is Always Necessary

Soil Should Be Carefully Sifted Before Placed in Containers.

A sponge's capacity to take up water is largely dependent upon the size of the holes in it. A coarse sponge with holes as wide as the finger and many of them, will not hold as much moisture in suspension as will a sponge of the same size with fine pores and smaller orifices. The soil acts as a sponge, holding moisture for the plants, and the finer the soil the more readily it holds moisture and the more moisture will it contain. Finely sifted and close packed, the tiny rootlets of the seedling comes in contact with its nourishment at once and starts rapid growth. If the soil is lumpy, with large interstices, a seed may send its first sprout

SIFT THE EARTH TO BE USED IN PLANTING SEEDS IN POTS OR FRAMES. IT IS EASILY DONE AND WELL WORTH THE EFFORT.

out into space until it can reach more closely packed earth. The fine soil draws moisture from the bottom upward by capillary attraction, and the finer it is the more readily the moisture is drawn through the surface and the soil evenly moistened. In coarse, lumpy soil the water is not drawn up regularly from below.

For this reason it is necessary to take extra care to sift the soil for seed boxes, and for the top layer of the hotbed or coldframe. In order to prevent too rapid drying out, it is necessary to pack the fine soil firmly over the seeds.

The coarse screenings from the soil are useful to spread over the bottom of the seed box to provide drainage. Over this the fine soil should be spread evenly and firmed down. The finer the soil and the more fertile it is the better the germination and quicker the growth of the little plants. A great deal of seed is wasted, and many attempts at sowing seeds indoors prove failures at the very start because the soil is not properly prepared. Next to this is the failure to provide suitable drainage. The seed box must be built so that the soil will retain moisture, but will not remain water soaked and sour. Overwatering promotes a fungous disease known as "damping off" which causes the seedlings to rot at the surface of the soil. This fungus often will ruin a box of seedlings before the grower knows what is happening. It can be obviated by providing drainage at the start.—National Garden Bureau.

## PLANTS MUST BE FED

Plants, like animals, must be fed. Their diet consists of organic matter derived from nature or decaying vegetation and from chemical fertilizers, especially nitrogen, phosphoric acid and potash.

## MOTHER NATURE GETS BUSY

Old Mother Nature wakes her children early in the spring and the wise home gardener works in co-operation with Mother Nature.

## SWISS CHARD

A few bits of Swiss chard started in a window seed box will give early greens.

## Signing Was Unanimous

Barrett, the historian, says that "every one of the shrews who designated signed the proposed Constitution. Since the two other delegations had previously left the convention, the signing was unanimous. All perhaps had grave doubts about one feature or provision or another, but they had believed better than they knew and they all had the courage to sign the sacred words of their solemn work."

## Writer Declares Humming Birds Are Great Racers

As the male hummingbird takes no part or interest in the nest building or the rearing of the young, and a brief visit to any convenient flowers serves to satisfy his appetite, he has considerable spare time at his disposal. Most of this he spends on certain favorite observation points, whence he sallies forth occasionally to pursue of a trespassing human or bird of some other sort. Even the cliff swallow is not immune from his attacks and seems quite unable to avoid his onslaughts.

The hummingbird frequently mounts vertically into the air until almost out of sight, then descends like a bullet directly at the object of his attention. If the other bird flies, the hummingbird follows; if not, he passes within a few inches, sweeping through an arc which carries him upward again to repeat the process until tired. The downward swoop is accompanied by a long shrill whistle which is characteristic of the species and is often the first indication of its arrival in the spring.

To a casual student of hummingbird psychology they appear to be actuated more by love of the excitement of the chase than by anger or jealousy, as the other birds are not harassed if they choose to ignore the antics of the hummingbird, as is very often the case. I have often seen a hummingbird approach and hover in front of another as if bantering it to a game of tag, then dart off, being pursued by the second. The females seem to enjoy this sport as well as the males.—Robert E. Wood in Bird Lore.

"Dark" Stars. The United States naval observatory says: "A dark star is an invisible or very feebly luminous star. As it is impossible to estimate the proportion of stars that are 'dark,' it is conceivable that these may greatly outnumber the visible ones. That many dark stars do exist, however, is shown by their effects on the orbits and on the light of certain luminous ones, and by the appearance of novae."

## TOWN VANISHES IN FOUR SHORT YEARS

Streets Where Business Once Thrived Now Deserted.

Leary, Tex.—Four years ago Leary had 10,000 inhabitants, boasted of theaters, hotels, dance halls, churches, schools and a chamber of commerce. Now it has only broken windows in the few deserted buildings left standing on silent streets.

The boom came in 1920 with the discovery of oil. Leary was just open prairie then, but within six months there grew a city, bustling with the colorful, vivid life that marks every oil town. Within a year salt water flowed into the wells and none of them turned out big producers. The inhabitants departed almost as suddenly as they came, many tearing down buildings and shipping the material and others hauling buildings overland to new locations.

Postmistress on Job. But Leary lived while it lived. It had its full share of exciting times, with more melodrama than routine. But all the actors have gone. All but one. Mrs. Ella Meeks, postmistress, is still here. Mrs. Meeks runs the post office and a little store, which serves the station agent and about 50 farmer folks near by, most of whom were there before Leary flourished.

Leary still possesses one feature of which no other town may boast. Rayless is the post-office name. It lies midway between Cisco and Breckenridge, in a bowl between two mountain ranges, and the townsite has an altitude of nearly 1,800 feet.

However, Mrs. Meeks is optimistic. She still boasts for Leary. She pictures for it a rosy future.

"Just look at this beautiful townsite. Did you ever see a better?" she asks. "We have the mountains close by and an elevation of 1,800 feet. We have a railroad, good water and natural gas. This would make an ideal

## Driving Economies

Was Indeed Done. Proper maintenance adjustment. Frakes in correct working order.

All working parts lubricated to secure smooth running. Disengage clutch whenever possible and coast. Obtain sufficient momentum when approaching a heavy grade to carry the car a considerable distance up the grade before changing gears.

place for a hospital. It is a great cattle and poultry-producing country. Right now I am in on a scheme for getting settlers from Florida and R. Q. Lee of Chico is planning to bring in poultry people from the North and establish the biggest poultry plant in the Southwest.

Can't Give Lots Away. "Seven hundred acres already have been obtained for it, and we want 300 more. In the big days Leary once had a chamber of commerce dinner that I attended, and they discussed big things for the city. Well, I haven't given up yet. The oil men said that the old residents were too pessimistic in charges for pipe lines and leases and for labor. They said that it was that killed the town.

"Business lots on Main street once sold for \$2,000 and now you can't give them away, but that won't last. Talk about healthy climate. Why, we had only two natural deaths in four years and the physicians were the first to begin to leave."

Six wells at Leary are still producing, but they are small affairs, yielding from six to ten barrels daily. From the doorway of her little unupstated store where she resides and boasts, Mrs. Meeks looks out upon the Palace hotel, a brick structure, whose windows are broken and which now is silent. Debris marks the site of former buildings along the street.

## Famous Lunatic That Landed Over Century

The recent case in which a couple of years elapsed between the completion of a crime and its discovery, falls far short of a record.

The famous case of Eugene Aram, which later formed the subject of the novel by Lytton and the poem by Keats, is a leading one, for the murder was committed in 1759, and Aram was executed in 1759. In the same century a man named Horne was executed for the murder of his child 25 years earlier, and there is also the case of Governor Wall, who was hanged in 1885 for a murder committed in 1782.

Apart from capital crimes, the law's delays have always been notorious. It was stated recently, for instance, that a lawsuit about some land, which had started in 1778, had just been finally settled, and a litigant is even now suing the United States government over property alleged to have been alienated during the American Revolutionary war.

A well-known barrister used to recall a remarkable case of this kind. In 1808 he prosecuted, as counsel for the Crown, a man who was charged with stealing a leaf from a parish register in 1808.—London Tit-Bits.

## There Was Hope

Lady—Tobe, I'm sorry to hear your wife got a divorce.

Tobe—Yes, she done gone back to Alabama.

Lady—Who will do my washing now?

Tobe—Well, mums, I've co'tin' agin, and I co'te mighty rapid.—Cincinnati Advocate.

## Double Danger

"That young man proposed to me last night, mother. What shall I do?"

"But, my child, you're only known him two weeks."

"I know, mother; but if I delay in accepting him he might find out some things about me he won't like, too."—Boston Transcript.

## CAVE MAN A YEAR TO LIVE

San Antonio, Tex., May 12.—The body of a cave man, who lived in a cave near San Antonio, Tex., was found by a cave explorer.

Robert A. Snyder, 1872 Tomb, San Antonio, Tex., went to a cave near San Antonio, Tex., and found the body of a cave man, who lived in a cave near San Antonio, Tex. Snyder found the body of a cave man, who lived in a cave near San Antonio, Tex. Snyder found the body of a cave man, who lived in a cave near San Antonio, Tex.

Today Mr. Snyder is a changed man. He has acquired a new life. He has added fourteen pounds to his weight. His appetite is unusually good. His nervousness and depression are gone. He sleeps well and his plumpness of energy and ambition.

What caused this wonderful change? What brought back the joy of living to this cave man, who had been in a cave for so long? Ask Mr. Snyder and he will tell you to buy the changes to the marvelous effects of Hagen's Paw Paw Tonic, the national strength-builder.

"I can recommend Paw Paw Tonic to any one who is run down," says Mr. Snyder, "or for any one who is nervous, depressed, sleepless and lacking in appetite as I was. My doctors and friends thought I would not live a year. But I took Paw Paw and the result is I have gained 14 pounds, sleep like a baby, feel good all over, have more pep and ambition. I think Paw Paw is a wonderful tonic."

Hagen's Paw Paw Tonic creates physical strength. It is probably the one thing that can do YOU worlds of good. Try it! It costs only \$1 a bottle. Only \$1 for health that many would pay thousands of dollars for! Begin taking Paw Paw Tonic! "There's a Hagen's Paw Paw Tonic for Every Ill." Hagen's, Scranton, Pa.

and watch your business grow

# ANNIVERSARY SALE

The 29th Anniversary Sale Continues Until Saturday, May 24th

**HAIR NETS**  
Sister Susie Hair Nets—single or double mesh; cap or fringe style; all colors, including gray and white. All nets guaranteed perfect. Regular price, 2 for 25c. Anniversary Sale, 4 for 25c.

**BREAKFAST SETS**  
54-inch All Linen Cloth, with one-half dozen hemmed Napkins to match, borders in pink, blue or gold; regular value \$4.98 set. Anniversary Sale, set \$3.98.

**TOWELING**  
17-inch All Linen Toweling, colored border; regular value 25c yard. Anniversary Sale, yard 18c.  
All-Linen Checked Glass Toweling in red or blue, soft absorbent quality; regular value 25c yard. Anniversary Sale, yard 25c.

**LONG CLOTH**  
10-yard pieces of White Long Cloth, 36 inches wide, good quality; regular value 25c yard. Anniversary Sale, piece, \$1.98.

**MADRAS SHIRTING**  
32-inch Satin Stripe Madras Shirting, good assortment of colors; regular value 60c. Anniversary Sale, yard 50c.

**BEDSPREADS**  
74x84 Crochet Bed Spreads, assorted patterns, good quality; regular value \$2.25. Anniversary Sale, \$1.59.

**PILLOW CASES**  
45x36-inch Pillow Cases, bleached; regular value 39c each. Anniversary Sale, each 29c.

**LUNCH CLOTHS**  
58x58-inch Mercerized Lunch Cloths, hemstitched in colors—pink, blue and gold; regular value \$1.50. Anniversary Sale, 98c.

**TURKISH TOWELS**  
14x26 Bleached Turkish Towels, blue border, good quality; regular value 19c. Anniversary Sale, 15c.  
17x34 Bleached Turkish Towels—good weight, soft quality; regular value 25c each. Anniversary Sale, each 19c.  
20x38 Double Thread Turkish Towels—full bleached, heavy weight; regular value 50c. Anniversary Sale, each 39c.

**DAMASK**  
58-inch Bleached Table Damask; good assortment of patterns; regular value 60c yard. Anniversary Sale, yard 50c.  
70-inch All Linen Silver Bleach Table Damask; fine quality; extremely serviceable; good assortment of patterns. Regular value \$1.29. Anniversary Sale, \$1.59.

**GLOVES**  
Ladies' washable Suede Gloves, strap wrist; a good serviceable glove. Regular value \$1.00. Anniversary Sale, pair 79c.  
A washable Suede Glove of fine quality, stitched backs, strap wrist; heavier, made grey. Regular value \$1.25. Anniversary Sale, pair \$1.00.

**RUGS—AT LOWEST PRICES**  
This store has a reputation for quality giving in Rugs—it is the confidence of the public in our merchandise that has made this department grow.

**SEAMLESS TAPESTRY RUGS**  
Large assortment of patterns in durable Tapestry Rugs. Sizes 9x12, at \$29.50.

**SEAMLESS AXMINSTER RUGS**  
Oriental designs, also small over-all patterns. 9x12 size at \$39.50.

**WINDOW SHADES**  
Now is the time to replace your window shades. All the standard colors. Prices 65c and 85c Duplex Shades \$1.00.

**CURTAINS AND CURTAIN MATERIAL**  
Our showing of Quaker Craft Curtains now very complete, including Filet, Tuscan and Cross Cut Nets. Many are finished with fringe.

**MARQUISSETTE AT 39c**  
Large variety styles of plain, dotted and hemstitched Marquissette, 36 inches wide, at, yard 39c.

**SUNFAST DRAPERY AT 98c YARD**  
36-inch Sunfast Drapery material; colors: blue, rose, green and brown. Special value, yard 98c.

**COATS AND SUITS AT REDUCED PRICES**  
Every Coat, Cape and Suit in the store at reduced prices for the Anniversary Sale.

## New Wash Fabrics for Summer Wear

**VOILES**  
New Voiles; wide range of patterns and colors. Special at, yard 39c.  
40 and 41 inch Summer Voiles; beautiful three color patterns; large variety of Dotted Voiles, yard 59c.

**GINGHAM**  
38 inch French Gingham; full assortment of colors, yd. 50c.

## Special Silk Values

12 mommie natural color Pongee; 33 inches wide, yard \$1.00.

**BLACK SATIN**

# L. E. WILDER & CO., INC.

## Exclusive Picture of Honduran Revolt

Honduran rebels purchased an airplane, over which they maintain a constant guard that the federalists may not be able to damage it. Plane and guards are shown in the upper picture. Arrow points to Gen. Martinez Funes, airplane commander. On either side of him are two American airmen who have been retained by the revolutionists—C. E. Krueger and Lawrence Brown. Below is a scene in the rebel camp at Berlimbo, one of the hills fronting the city of Tegucigalpa, Honduras, and from which point rebel attacks were launched.

Definite date for the Council Scout rally has been set by the executive committee as June 14, Flag day. Scout Executive Lee T. Thorp of Delaware county council has consented to be one of the judges. At this time David Forrest Wilbert, Jr., is to present the Otsego-Schoharie council with the flag.

The council has instituted a leadership-training course in each of the three districts. The first night of the course will be started in Oneonta on the night of May 22.

The South Otsego district is meeting in Oneonta on Thursday May 22, to discuss some of the problems that especially concern this district.

The executive committee has decided to name the council camp "Awasaga," which means place at water, at the suggestion of Willard E. Tague of Oneonta.

Five churches of the city have undertaken the organization of troops. Lutheran, Episcopal, First Methodist, First Baptist, and Main Street Baptist.

Arrangements are now being made for a Rotary day at the Scout summer camp. Kiwanis day has already been set.

Scout Executive Hornbeck is to attend a convention of County Scout Executives to be held at Albany, May 26-27.

The local scout organization is to participate in the Boy's Week program of the Rotary club of this city. A. E. Riedinger of that club is in charge of the preparations.

## A FLAMBERGASTED DARTY.

In the Camp for Stealing a Coupe, But Missed a Grand Chance.

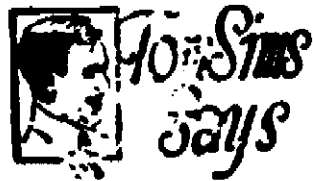

Trooper Miller picked up a colored man at First Branch early last week for the not uncommon offense of stealing a Ford coupe. The darty gave his name as Clarence H. Thompson of Wilkes-Barre, Pa., and came along gracefully.

Investigations made after arriving at the Delhi jail, says the Express, revealed the presence in the back of the car of some 26 bottles of whiskey. The darty all but fainted when he found out the sad truth that he had run off with a bootlegger's car.

"Mah Lawd, boss," he told Miller, "if I'd known all that booze was ridin' back of me, I'd a been wadin' in the hills and wouldn't a come to jail."

So depressed was Thompson by the terrible loss that he waived extradition and was taken back to Luzerne county, where he says he doesn't care what becomes of him.

Lead—Shrine auto emblem between Collings and Oneonta. Phone 123-W. Adv 21.

Atlanta (Ga.) woman shot at but escaped three times without hitting her, proving some women are not trained for matrimony.

In Myrtleville, Ark., a man tried to run down his enemy with an auto loaded with live mice.

A specimen reproduction would more than a pair of white trousers.

Shedden robbed a Granite City (Ill.) bank. Got \$45,000. Then a woman's money for a vacation at a summer resort.

New York girl who had a double life revealed her old just runs to catch.

Aggravated bank are circulating Van Gogh's oil canvas and many American just words are still at large.

The Will Rogers is leading their married beauty.

One thing the children have shown us is that the million pound note is no use.

Quick heart stopper was the only way to a divorce.

## NO OILING AFTER JUNE 1

Work Covering Millford-Cooperstown Highway Commences This Morning and Otsego-Wells Bridge Section Tomorrow.

Work oiling two additional sections of state highway in this county will commence early this week, which will be the last jobs of the kind to be commenced until after September 1st, specific orders having been issued by the state department at Albany that no oiling be in progress in the state between June 1 and September 1.

If the weather permits County Engineer Bains states work will commence this morning oiling the surface of the concrete road between Millford and Cooperstown. For the first time in this county at least a new kind of oil known as Cut-back, an oil which has been cut back with naphtha, which is expected to evaporate the volatiles in the oil so that it will not pick up 24 hours after it has been applied, will be used on this section in accordance with the method followed for some time by Mr. Paine one side of the highway will be oiled first.

Work on the second section, that between Otsego and Wells Bridge, will commence Tuesday morning, and between another new oil will be given a trial. This will be applied hot and its manufacturers claim that it will be sufficiently absorbed and set that it will not pick up two hours after it has been applied.

Both Engineer Paine and the motoring public will watch with interest the use of these new oils, for one of the banes of motoring in former summer months has been the sticky oil which one so often encountered.

## O. N. S. LUNCHEON AT UTICA

Happy Gathering of Alumni at Hotel Utica Saturday Afternoon.

On Saturday at the Hotel Utica was held the seventeenth annual luncheon of the Mohawk Valley association of Oneonta Normal alumni. About one hundred were present to meet the members of the faculty and to renew old friendships. The first hour was given over to a reception wherein all present had an opportunity to meet Doctor Hughes and his associates on the faculty.

Then followed the luncheon, which was served in one of the ballrooms of the hotel. After the luncheon proper the afternoon was devoted to speech-making. Doctor Hughes, admirably presided as toastmaster, and he presented each speaker with most appropriate words of praise. The following participated: Professor Curtis Miss Matheson, Mr. Mills, Miss Scott and Doctor Schumacher. Doctor DeCamp, who is superintendent of the schools of Utica, responded for his teachers. In addition to those mentioned above, the following were present from Oneonta: Mrs. Hughes, Mrs. Curtis, Miss Fitts and Miss French. At the business meeting officers were elected as follows for the ensuing year:

President—Miss Ella Plumb, '12.  
Vice president—Miss Elma Graves, '10.  
Secretary—Miss Emily Brady, '15.  
Treasurer—Miss Della Pettit, '22.  
Miss Dunn, of the class of 1911, sang three most delightful songs.

Would Exclude Non-Producers. Oneonta, May 18.—At the Utica Forks Monday evening the managers of the factory of the Phoenix Cheese company, operating a factory there, will meet in an effort to get the company to purchase in the future only pooled milk. Most of the producers are poolers, and they hope to secure the cooperation of the company in the movement.

## Will Provide Weather Reports.

Farm Bureau Agent Harlo P. Deas has secured the cooperation of the independent telephone lines serving farmers in Otsego and Burlington. Plans to forward to all patrons the special harvesting predictions of the Weather Bureau, which are to commence June 1. Mr. Deas hopes to extend the service to all the farmers' lines at least in the county.

## Found Cars for Sale.

Two 1924 Maxwell cars, one overhauled and in excellent condition, one equipped with modern motor, gear, lighter and set. Both have extra tires. These cars are a bargain for some one. Ford speedster, new body with top and overhauled. Motor in excellent mechanical condition. A snappy little car. Cheap. Good cause, newly painted, good tires, shock absorbers and other extras, in good condition throughout. Other good buys in used cars. See Mr. Moore, Sales, 28 Cortright avenue. Phone 104-W. Adv 21.

Share of Future (continued). Monday night, May 19, All invited. Bring refreshments. 8 Gaydon street. Adv 21.

## HUMOROUS MENTION

Cl. "It's a man of letters, isn't he? Pat—Rather! They're what I intend to get my branch of promise on.—[London Mail.]

"Johnny, your face needs washing. Did you look at it in the glass this morning?" "No, mother, but it seemed all right when I felt it."—[Boston Transcript.]

"How dare you talk to me in that tone? Don't you know I am your father?" "Yes—but you can't blame me for that!"—[Sondags Nisse Stockholm.]

"He—I wish you'd drop the Mr. and call me plain Jim." She—"Oh, but it would be unkind to twist you on your personal appearance."—[Philadelphia Bulletin.]

"How's your boy getting on in college, Jones?" "Fine. He's got a cauliflower ear, two busted ribs, a broken collarbone and a twisted nose, and after the football season he's going to take up some studies."—[Richmond Times-Dispatch.]

"Jim married to get a home." "Well," "His wife has so many relations that he thinks now he's acquired a hotel."—[Montreal Gazette.]

Senior—Say, can you tell me how I can find the chemistry room? Soph—Sure! Ask somebody.—[Washington Star.]

"He has a great faculty for putting the cart before the horse." "O! I wouldn't say that. Say he has a habit of trying to make the wheels run the motor."—[Automobile Magazine.]

"Well, and what did you think of the beauties of the Maine woods?" "I didn't see a single girl after leaving the depot."—[Judge.]

Visitor—"So you really think Yarmouth is a healthy place?" Native—"Healthy! Why, we cure harrings here after they're dead!"—[London Tit-Bits.]

## POPPY DRIVE TO BEGIN

Mrs. Goodman Richard Davis, Head of Executive Committee.

Mrs. Goodman Richard Davis was today named state chairman of the executive committee in charge of the Memorial poppy drive of the American Legion, which will take place the week preceding Decoration day. This drive is conducted annually in this state and the proceeds of the poppy sales go to the Veterans' Mountain camp on Big Tupper lake. In the Adirondacks. The camp is for tubercular veterans of the World War who cannot prove that their disability is a result of their war service.

A number of women long identified with drives and welfare work have been named to serve on the committee with Mrs. Davis.

Plans for the drive have progressed perfectly," said Mrs. Davis, "and we have every reason to believe that this year the poppy sales will reach hitherto unparalleled proportions."

As a public spirited and patriotic citizen who has not forgotten the debt they owe to those boys who gave that most precious thing to their country—their health. They realize the wonderful work the camp is doing and early organized the need for an institution of this sort and it is with the greatest sincerity that they are leading their aid and their efforts that the drive may be a splendid success.

## PILES

(Case File 1184, Feb. 27, 1935) "Suffering from piles for many years, I had no relief until I used Dr. J. C. Smith's Pile Ointment. I had no more pain and the piles were completely cured. I feel like a new man."—[J. C. Smith, Pile Ointment, 1184, Feb. 27, 1935.]

## UNIVERSITY SCHOLARSHIPS

New State Law Removes Restrictions Against Engineering Students.

New York, May 18.—Engineering students are again entitled to receive university scholarships from the University of the state of New York, according to a letter received yesterday by Dean Charles H. Snow of the College of Engineering of New York University from Augustus S. Downing, of the State Department of Education. Engineering students formerly were entitled to receive state scholarships in various universities of the state from the University of the state of New York, but a law was passed withdrawing this privilege because such students were preparing for a profession, practitioners of which must be registered. A recent amendment to the State Education law restores this right to engineering students.

Commissioner Downing's letter to Dean Snow says:

"Beginning with this year a university scholarship can be issued to any applicant who has met all the other requirements of law and Regents' Rules provided the applicant states it is his purpose to pursue a course of study in some of the universities, professional and technical schools and other institutions for higher education authorized to confer degrees requiring four years of undergraduate study to obtain a degree and approved by the Board of Regents. Prospective engineering students will no longer be refused scholarships because they intend to enter engineering courses of study."

## MOVE TO DISMISS INDICTMENT

Attorneys for Accused Mother and Aunt in Rothenberg Murder Case Open Fight.

Oneonta, May 18.—The fight to dismiss the indictments against Mrs. Elizabeth Litt and Mrs. Rose M. Rothenberg, charging them with the murder of Mrs. Rothenberg's seven year old son, Howard, was started yesterday when Supreme court Justice Hoeh signed the order requesting District Attorney Charles G. Coffa to show cause why attorneys for the defendants should not be allowed to inspect the minutes of the grand jury.

The attorneys for the defendants allege the indictment was based on illegal evidence and the result of mere theory and argument by a New York detective, William D. Cunningham of Albany, represents Mrs. Litt and Edward J. Lackey is counsel for Mrs. Rothenberg.

The trial is expected to start June 1, when the first panel of 250 jurors will report.

The order came up before Justice Howard in Troy Saturday and was adjourned until next Saturday by consent of counsel for both sides.
